 [Brahmel International Impex](#)

Welcome to [Brahmel International Impex](#), where we specialize in manufacturing, exporting, and wholesaling a wide range of high-quality spray-dried fruit and vegetable powders. Our products are made using the latest techniques and technology, ensuring that they are of the highest quality.

Our spray-dried fruit and vegetable powders are ideal for a wide range of applications. They can be used in the food industry to add flavor and nutrition to a variety of products, including baked goods, snacks, beverages, and more. They can also be used in the cosmetic industry to add natural color and fragrance to a variety of products.

Our manufacturing process begins with carefully selecting the highest quality fruits and vegetables. We then use the latest techniques to gently extract the juice from the fruits and vegetables, which is then spray-dried into a fine powder. This process allows us to preserve the natural flavor, aroma, and nutrition of the fruits and vegetables, ensuring that our powders are of the highest quality.

We take great pride in the quality of our products. Our powders are free from any additives, preservatives, or artificial colors, ensuring that they are completely natural and healthy. They also have a long shelf life, thanks to our advanced manufacturing process, which allows us to preserve the natural flavor and aroma of the fruits and vegetables.

At our facility, we offer customized packing options, allowing our customers to choose the size and type of packaging that best suits their needs. We can pack our powders in small or large quantities, and can even provide private labeling options.

We pride ourselves on providing our customers with the highest quality products at competitive prices. Whether you're a retailer, wholesaler, or distributor, we can provide you with the powders you need to satisfy your customers.
